Presentazione progetto “Programmazione di Sistemi Mobile”

Giuseppe Fusco - Stefano Distefano

17/06/2026

Unisphere – Scopo

Connettere, Semplificare, Innovare

Unisphere nasce con l'obiettivo di creare una piattaforma all-in-one che supporti lo studente universitario fuori sede nell'affrontare i principali aspetti della vita quotidiana, accademica e sociale.

Grazie a un design minimal e funzionale, Unisphere elimina la complessità della vita universitaria, permettendo agli utenti di gestire ogni aspetto del loro percorso formativo con pochi tap. L'innovazione è al centro: tecnologie moderne per un'esperienza fluida e personalizzata.

Unisphere – Tecnologie

Stack Tecnologico di Unisphere

Sviluppo Core & UI

- Linguaggio: Kotlin (Native Android)
- Interfaccia Utente: Jetpack Compose con Material Design 3
- Architettura: MVVM (Model-View-ViewModel)
- Dependency Injection: Hilt (Dagger)
- Compilazione hardware ed efficientamento: KSP (Kotlin Symbol Processing).

Backend & Integrazioni

- Cloud Backend: Supabase (Auth, Real-time Database, PostgreSQL)
- Networking: Ktor Client (OkHttp engine)
- Serializzazione: Kotlinx Serialization (JSON)

Gestione Dati & Risorse

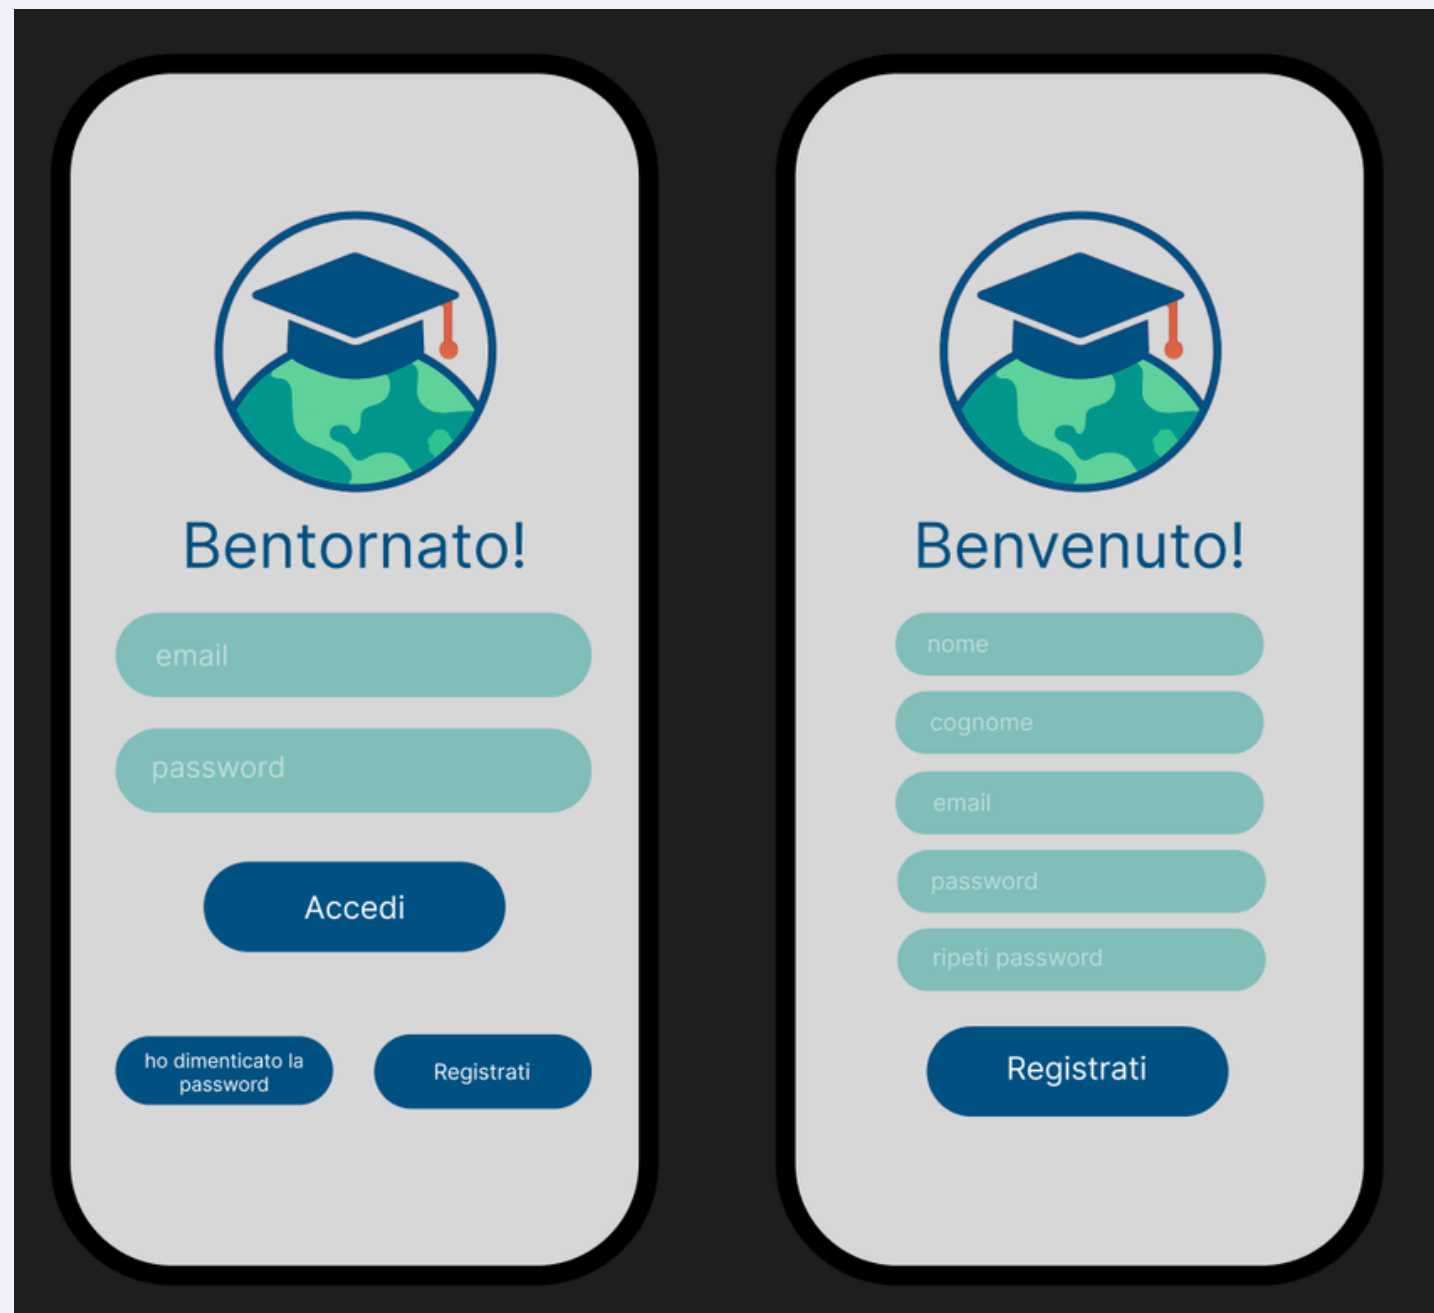

- Database Locale: Room Persistence Library (SQLite)
- Local Storage: Jetpack DataStore (Preferences)
- Image Loading: Coil (Coroutines Image Loader)

Geolocalizzazione & Feature

- Mappe: Osmdroid (OpenStreetMap for Android)
- Posizione: Google Play Services Location
- Ricette: Spoonacular REST API
- Suggerimenti indirizzi: Android Geocoder API

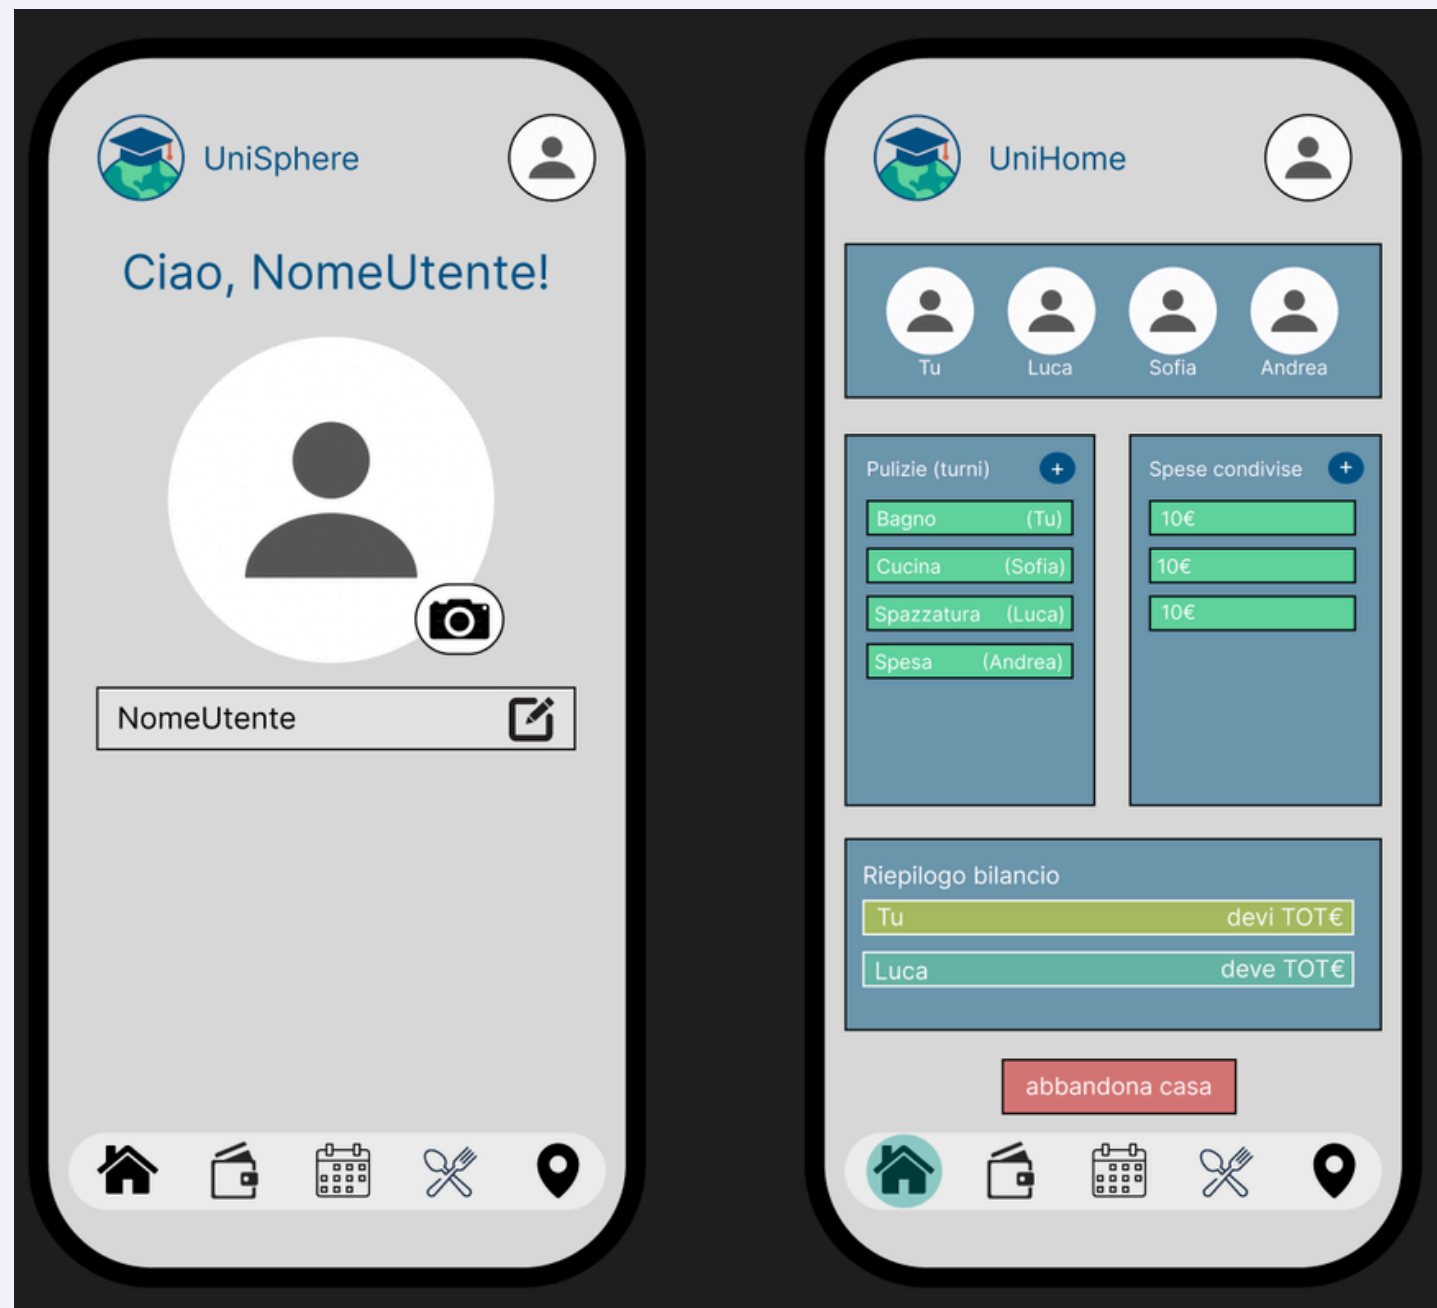

Unisphere – Mockup

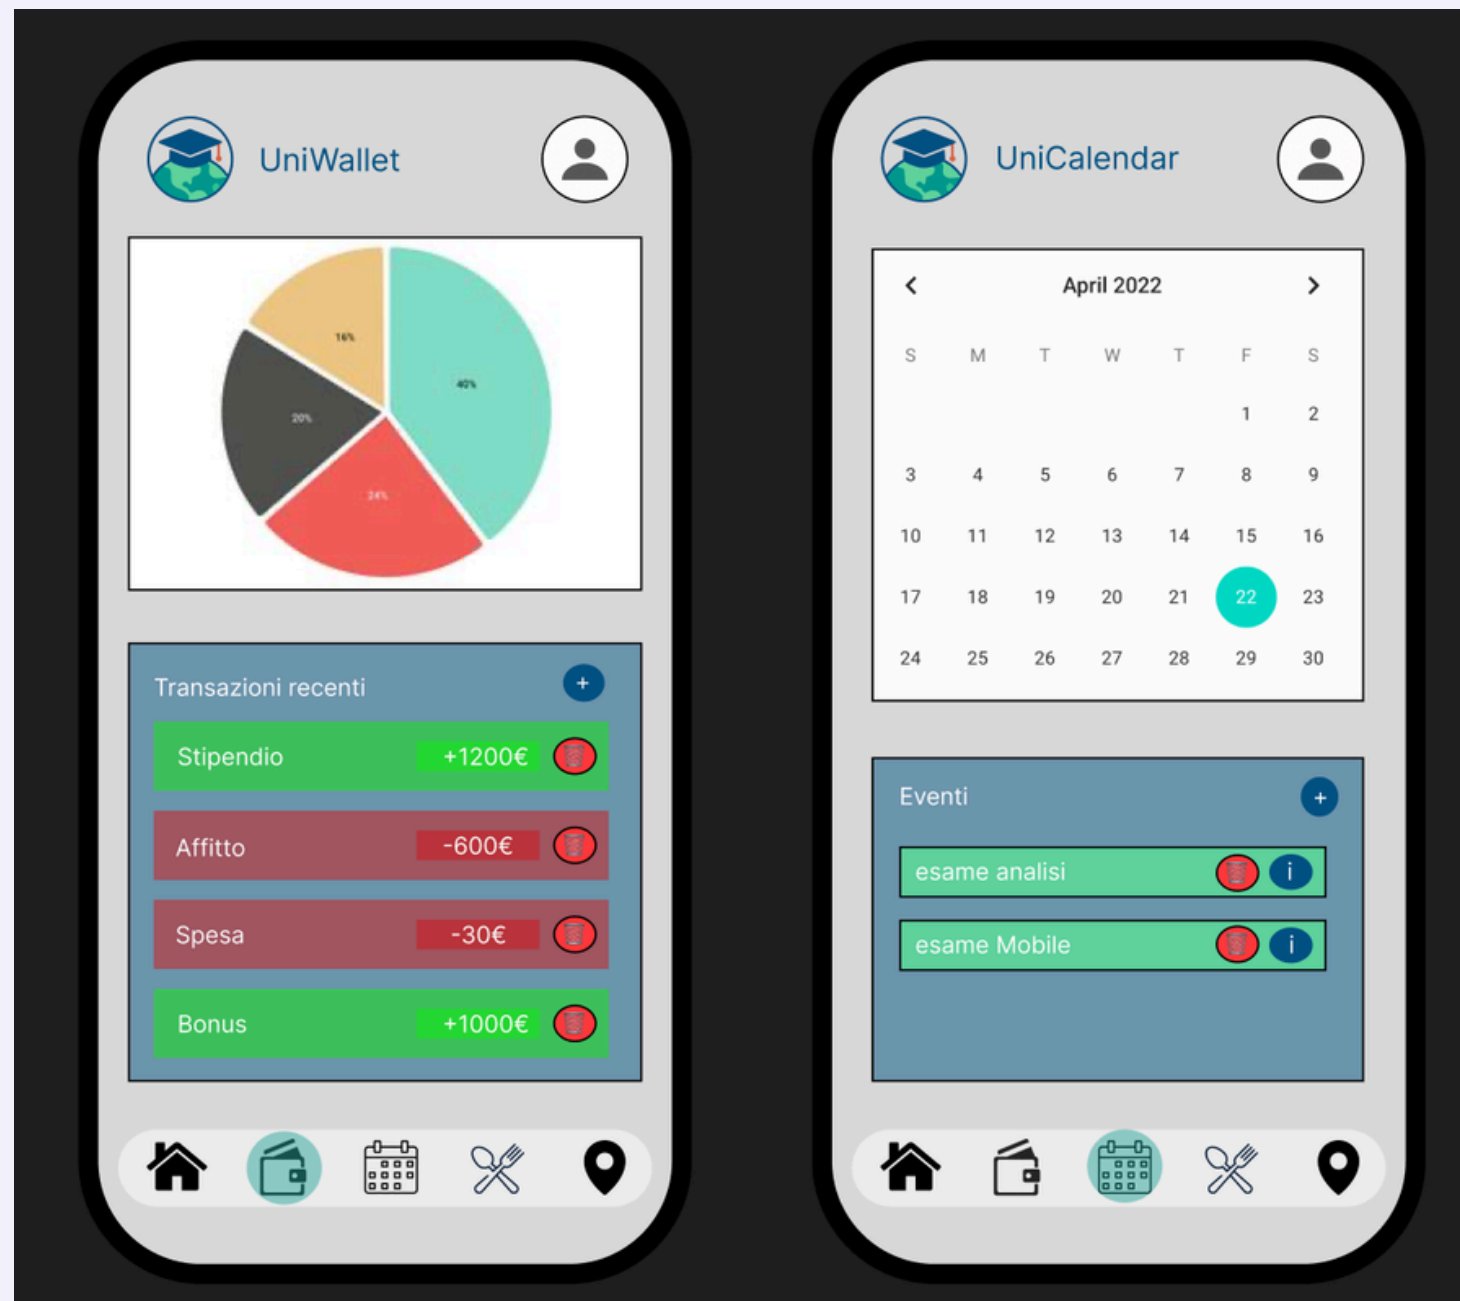

The mockup displays two mobile app screens side-by-side. Both screens feature a circular logo at the top, which depicts a blue graduation cap with a red tassel resting on a green and blue globe. The left screen is titled 'Bentornato!' (Welcome back!) and contains two light blue input fields labeled 'email' and 'password'. Below these fields is a dark blue button labeled 'Accedi' (Log in). At the bottom of the screen are two smaller dark blue buttons: 'ho dimenticato la password' (I forgot my password) and 'Registrati' (Sign up). The right screen is titled 'Benvenuto!' (Welcome!) and contains four light blue input fields labeled 'nome' (name), 'cognome' (surname), 'email', and 'password', followed by a fifth field labeled 'ripeti password' (repeat password). A dark blue button labeled 'Registrati' (Sign up) is positioned at the bottom of this screen.
